

artefact gGmbH

Glücksburg/Baltic Sea /Germany

International training centre for sustainable development

capacity building for technology transfer and development of sustainable solutions

We organize Your Training in the field of

- **identification of needs and potentials for technical training**
 - **electrical energy generation and management**
 - wind energy service and maintenance for grid connected and stand alone systems
 - solar energy for grid connected and stand alone systems
 - biogas, hydropower
 - **entrepreneurship for small business, Public Private Partnership**
 - **curriculum development and teacher training for environmentally sound technics**
 - **thermal energy generation and management**
 - fire wood and energy saving
 - solar thermal heat for drying, cooking
 - biogas
 - solar cookers
 - **local construction technologies, improved earth architecture**
 - **water supply and sanitation for rural communities**
- for
- **companies, NGOs, municipalities,...**
 - **decision makers, planning and administrative personnel**
 - **technicians, craftsmen, engineers, service personnel**
 - **teachers and other multipliers**

The artefact approach:

from scientific research to practical application

Synergetic effects by linking potentials for innovative technology from different countries

⇒ **identification of regionally sound technical options**
climate, political and administrative framework, status

⇒ **technical training and intercultural learning at home: cooperation with research institutes in the German-Scandinavian border region**

University courses SESAM (Sustainable Energy Systems and Management) and Energy and Environmental Management (Prof. Hohmeyer) in Flensburg

⇒ **development work in Germany**

operation of a training centre with regenerative energy supply and innovative architecture for the training of European and international target groups
sensitization of politics, business, banks, public, technicians,..

⇒ **modification and adjustment**

technical improvements and political changes, trends and experiences

⇒ **technical and process know how for international cooperation**

masterdrafted feasibilities, training programmes, excursions, consultancy, evaluations

⇒ **cooperation partners:**

- GIZ/ InWent (Internationale Weiterbildung und Entwicklung gGmbH)
- developmental NGOs, church organisations
- international bodies (APCTT, UNDP Turkmenistan, IREDA India, SENATI Peru, CEA Seoul,..)
- Chambers of commerce, private companies
